Holiday Homes....

...And Lodges

Inspired Spaces.

The team at Building with Frames are experienced in providing high quality, energy e cient, timber frame or SIPS built Holiday Lodges, Micro Homes and accessible living spaces. They can take your project from design and fabrication through to supply only or supply & x, including external cladding. From smaller single storey spaces, to larger contempary modern builds. We can deliver accurate o site pre engineered solutions especially suited for reduced construction site time and more challenging, less accessible sites!
